-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include specific reference signs and the same are not mentioned in the description: the elastomeric material present on both the plate 3 and the cone 6 are not set forth in either the drawings or in the specification. Amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. Claims 14-29 are objected to because in claim 14, "a" found in each of lines 7 and 14 should read --an--. Claim 29 is objected to because "a" found in each of lines 10 and 17 should read --an--. In addition, in line 13 of claim 29, "end the" is incorrect and requires amendment. Claims 15-28, dependent on claim 14, fall therewith.

Art Unit: 1795

3. The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 14-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, line 22, there is no antecedent basis for "flow channel".

Claims 15-20 and 23, dependent on claim 14, fall therewith.

Claims 21 and 22, line 2, the expression "upper chamber" does not have proper antecedent basis.

In claim 24, line 3, "upper chamber" does not find proper antecedent basis. Claims 25-28, dependent on claim 24, fall therewith.

Claim 29, line 27, there is no antecedent basis for "flow channel".

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Suda et al. disclose a methanol feeding mechanism of interest while Ozawa teaches a connector of interest and a fuel refilling means comprising a biasing means is taught by Wessberg.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose
